Professional Summary

Architectural Engineer with 6+ years of experience in architectural design, engineering consultancy, villa and commercial building projects, design coordination, authority submission support, and site coordination. Strong ability to prepare concept layouts, working drawings, 3D massing studies, Revit models, and client presentation packages. Available in Riyadh and suitable for consultancy-based architectural roles.

Core Skills

Architectural Design	Engineering Consultancy	AutoCAD Drawings
Revit BIM Modeling	SketchUp 3D Modeling	Design Coordination
Villa & Commercial Projects	Working Drawings	Client Communication
Saudi Building Code Awareness	Shop Drawing Review	Riyadh Location Fit

Professional Experience

Architectural Engineer - Al Noor Engineering Consultants | Riyadh, KSA | Jan 2021 - Present

- Prepared architectural concept layouts, working drawings, elevations, sections, and presentation packages for residential villas and commercial fit-out projects.
- Developed Revit models and coordinated drawings with structural and MEP teams to reduce design conflicts before submission.
- Used AutoCAD, Revit, and SketchUp daily for design production, 3D visualization, and technical drawing updates.
- Supported engineering consultancy submissions by organizing drawing packages, design revisions, and client review comments.
- Coordinated with project managers, clients, and site teams to clarify design intent and resolve architectural issues.

Junior Architect / Design Coordinator - Urban Lines Design Studio | Lahore, Pakistan | Aug 2017 - Dec 2020

- Created architectural plans, interior layouts, facade options, and SketchUp massing models for residential and office projects.
- Prepared detailed AutoCAD drawings including floor plans, door/window schedules, reflected ceiling plans, and tile layouts.
- Assisted senior architects in client meetings, design revisions, quantity coordination, and consultant drawing reviews.

Education

Bachelor of Architecture (B.Arch), University of Engineering & Technology, Lahore - 2017

Tools & Software

AutoCAD, Revit, SketchUp, Lumion, Adobe Photoshop, Microsoft Excel, Microsoft Word, Bluebeam Revu

Projects / Achievements

- Riyadh private villa design package - concept, working drawings, and Revit coordination.
- Commercial office fit-out - space planning, ceiling plans, elevations, and client presentation boards.
- Residential compound design coordination - consultant comments, drawing revisions, and interdisciplinary coordination.
